### Announcement Details

See following page.

## GlobalRoam's core engine in cMask and gCross patent granted in USA

GlobalRoam Group Ltd is pleased to announce that, its wholly-owned subsidiary, GlobalRoam Pte Ltd has secured its core engine in cMask and gCross service patent: "System and Method for Providing a Service" in USA, the 3<sup>rd</sup> country to be granted a patent on 17<sup>th</sup> February 2009. Patent of "System and Method for Providing a Service" is an invention with National University of Singapore (NUS) as the proprietor of the patent.

"System and Method for Providing a Service" is an invention idea that covers the mapping engine behind GlobalRoam's cMask and gCross technology. cMask allows privacy and safe mode of communication for users. With cMask, users are able to control by whom and when they can be reached, at the same time maintain their number private when they contact others. gCross's strength lies in its ability to allow users to be contactable by anyone, anywhere in the world without hefty IDD charges.

The granting of this patent will allow GlobalRoam Pte Ltd, the rights to prevent or exclude others from making, using, selling, offering to sell or importing the invention. Besides USA, "System and Method of Providing a Service" has also been granted a patent in Singapore on 31<sup>st</sup> October 2008, and in India on 22<sup>nd</sup> September 2008.

### About GlobalRoam Group Limited

GlobalRoam Group Limited is a group of companies which provides innovative infocomm services.
